

Product description

Our Azteca model is our **large tricycle for special needs** designed to fit riders 12 years old and up. Whether a teenager or an adult suffers from mild balance problems, vertigo or similar issues, or simply feels more confident on a tricycle, they can now ride in stability and in style with the slick-designed, convenient and comfortable Azteca large adaptive

tricycle. As a recreational trike, the Azteca comes with 21 gears. This sturdy tricycle features outstanding weather

resistance and offers a smooth and stable ride, thanks to its low centre of gravity. It can be equipped with an optional Bionx electric-assist kit to help riders face steep hills or strong winds, without pedalling. Comfortable, stable and fun, the Azteca is the coolest-looking trike on the market!

Features and options

- Comfortable backrest
- Adjustable seat
- 21 gears
