THE POWER OF MOBILITY

# C350

C350 Corpus™

C350 PS

## A class of its own.

Building on the success of the C300 series, Permobil introduces the rear-wheel drive C350 power base. This cool new base accommodates a variety of power seating systems from the Corpus to the PS. Defying classification, the C350 is somewhere between a low-rider with a seat-to-floor height of 18.25" and a hot rod with two different speed packages of up to 6.5 MPH. Quick access to the battery allows users to easily check under the hood, and classic paint colors truly showcase this ride. Available in Black Onyx, Crystal Blue, Extreme Yellow, Platinum Silver and Vintage Wine, the C350 comes with standard matching tri-spoke wheel covers to complete the look.

### C350 Corpus™

The Corpus seating system is now available on the all new rear-wheel drive C350 base. The Corpus seating system allows you to recline and even elevate the seat a full eight inches. Customization of the Corpus seating system is almost limitless with depth, width, height, and angle of multiple seat components being easily adjustable. Ergonomically pleasing with power tilt and recline, the Corpus is the world's most popular powered seating system.

SHROUD COLORS

### POWER FUNCTIONS

R-Net electronics with ICS Intelligent control system. Two programmable tilt and power legrest positions.

4-wheel adjustable independent suspension

Tri-spoke split rims with color matching hubcaps

Easy access external circuit breaker switch

Power tilt and recline

Power seat elevator

Power legrest

### C350 PS

Adjustability and versatility define the PS. The telescoping frame and expanding seat pan allow for full range of growth. The PS is constructed of a durable tubular material, designed to support after-market seating options. The adjustability is unmatched – 5 degrees at the footplate, armrests that flip up and out of the way, and footplate hangers that swing away or inside.

### POWER FUNCTIONS

VR2 electronics

Power seat elevator
